## DualBoot® LED

**IN STOCK**

### DualBoot® LED Detector

Power supply for DualBoot® LED patch cables.

Simply plug the detector into the appropriate electrical contact pairs on the RJ45 plug. Repeatedly pushing on the button permits the selection of 4 different operating modes, allowing you to adjust to all lighting conditions.

Batteries: 4 x button cell LR41.

#### Properties:

Material	Metal
Color	chrome
Applications	suitable for voltage supply for all DualBoot® LED patch cables
Packaging unit	1 pc.

### Colourclip for DualBoot® LED Patch Cord

Plug marking clip for placement on the RJ45 plug boot of a DualBoot® LED patch cable.

Clips can simply be inserted in the plug's kink protection boot, enabling subsequent color-coded plug identification. May be equipped as needed with RFID chip for automatic recognition and archiving of patch cable ID.

#### Properties:

Material	Polyamide (PA)
Color	yellow, red, blue, green, white, black, pink, brown, purple, orange, gray – special colors on request
Applications	Color and electrical coding of DualBoot® LED Patch Cables
Packaging unit	100 pcs.
