

# Patch Cable AWG23 RJ45, SolidCon Shielded

Mainly intended for use in PoE applications (like Access Points).  
The advantage of this cable is that longer distances can be covered, as well as it's higher current carrying capacity.

#### Standards:

IEEE 802.3; 10BaseT; 100BaseT; 1000BaseT; 10GBaseT;  
IEEE 802.5 16MB; ISDN; ATM; Telephone

#### Eigenschaften:

|                           |  |
|---------------------------|--|
| Cable                     | AWG23/1 - F/FTP or U/FTP   |
| Color                     | blue   |
| Connector color           | white-transparent  |
| Gland                     | black  |
| Electrical specifications | Cat. 6 <sub>A</sub> ISO/IEC  |
| Packaging unit            | Up to 3m in length: 10 units in polybag<br>3.01 – 5m in length: 5 units in polybag<br>Over 5m: individually packed |
| Length key                | Last 4 digits in order code = length of cord in dm   |

| Description                             | Ordering code   |
|---|-----------------|
